ABOUT

HL is a professional cosmetics company offering a wide range of treatments for the face and body, while providing solutions for most skin types and conditions. The various product lines include treatment series for use by professionals at cosmetics institutes and treatment series for home use. HL products are marketed and sold by aestheticians, beauty clinics, spa chains and hotels.

Since its establishment thirty years ago, HL's credo has been to strive for professionalism and constant innovation. The experience and know-how the company has accumulated over the years by developing and manufacturing products, as well as marketing them worldwide, are reflected in the brand's multitude of products and their effectiveness. Formulas are developed based on scientific research and clinically researched and tested components, with an emphasis on product safety, quality and benefits. The meticulous production processes take place in a state-of-the-art plant, using active ingredients of the highest-quality while maintaining environmental awareness and responsibility.

The "Always Active" slogan below the brand logo reflects its essential approach: products that are based on active ingredients and provide visible results and a constant commitment to the creation of innovative, effective solutions.

VISION

As a leading professional brand marketed around the world, our guiding vision is the development of products that provide real results and quality of life to our customers.

- Through constant innovation aimed at developing advanced cosmetic products based on active ingredients.
- Through the professional development and enrichment of human resources, by providing know-how and practical experience to cosmeticians.

VALUES

- ▶ Professionalism and innovation
- ▶ Quality and a rich variety of advanced treatment solutions
- ▶ Concrete results
- ▶ Reliability and integrity

PRODUCTION, RESEARCH AND DEVELOPMENT

HL's state-of-the-art production plant manufactures all company products in compliance with GMP production standards and the ISO 9001 quality standard. The production processes at the plant are controlled and supervised at all times by the QA department, which performs inspections and quality control at all stages of the production process.

The HL research and development laboratories employ experienced chemists and pharmacists with relevant experience and training, who are entrusted with developing advanced formulas and constantly improving existing formulas.

TRAINING CENTER AND SHOWROOM

Expansive know-how, as well as practical and professional experience, is the basis for our operations and for the relationships and dialog that exist between the professionals and their customers. We at HL believe that instilling know-how and experience in our customers is our duty. Accordingly, we regularly hold professional training programs and various courses, starting with the introduction to HL products, through to comprehensive studies of the skin's structure and needs, as well as to advanced marketing courses.

ENVIRONMENTAL RESPONSIBILITY

Global warming and concern for the environment are paramount to HL and we therefore aim to provide high quality, effective cosmetic products, while maintaining environmental responsibility. The company has connections with recycling organizations and supports the process of collecting and clearing waste for recycling.

MAP OF THE HL PROFESSIONAL PEELS

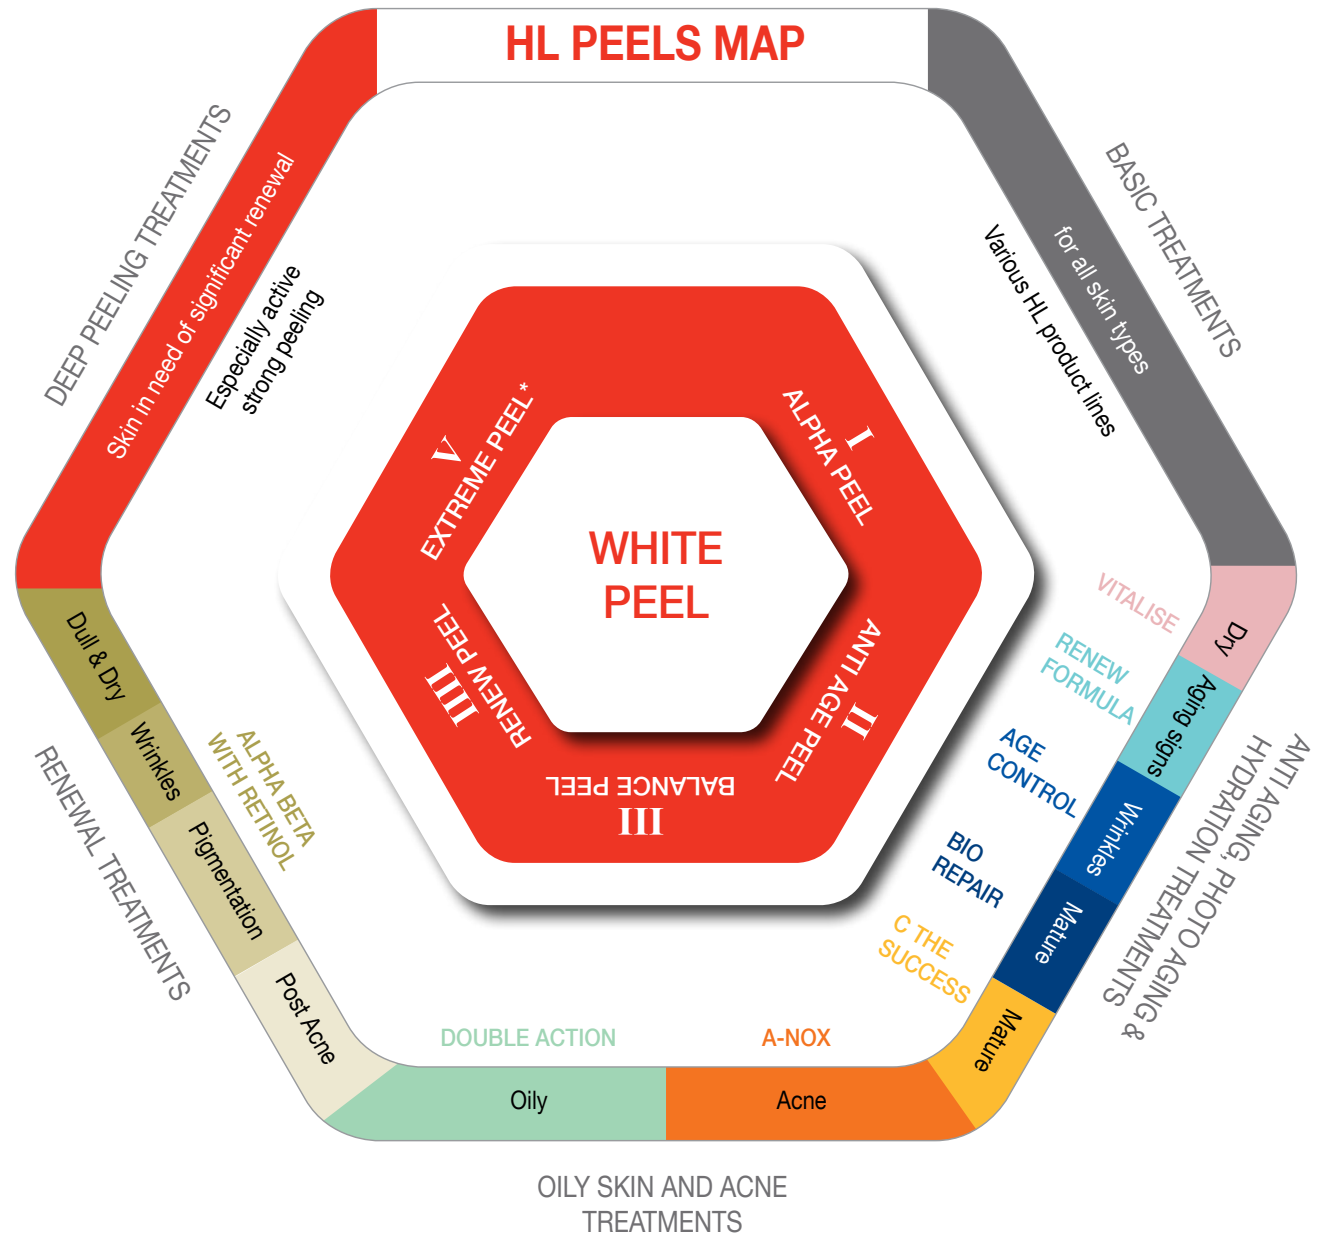

HL's **PROFESSIONAL PEELS** range includes 6 cosmetic peels differentiated in their strength and suitability by the blends of the active ingredients according to the aesthetic condition.

STRENGTH by means of the concentration and ratio between the acids, is marked with Roman numerals from the lowest (I) to the highest (V).

SUITABILITY by means of special ingredients chosen according to the treatment and skin condition.

The HL's signature protocols are based on 2 peels - **WHITE PEEL** as the first or second peel during the in-spa protocol and a 2nd peel chosen among **PEELS I-III** according to the skin condition and benefits desired.

The map shows the possible combinations of **HL PEELS** for different skin types and in-spa treatments.

PEELS

PROFESSIONAL PEELS

The professional PEELS line is differentiated by different strengths depending on the concentration and proportion of acids and is marked with digits (I-III) according to designated components that are adapted to treatment type and skin condition. The line is intended for a large variety of treatments.
